Verse

Interlude (I'm not too sure about this part)

```

e|--9----7-|
B|--9----7-| I think they use these chords, so just mess around with them
G|--9----8-| until it sounds right. While guitar 2 does some lead
D|--11---9-| stuff, over C#, with Delay or Reverb.
A|--11---9-|
E|--9----7-|

```

Chorus x2

Then Guitar 1 plays Intro Riff over and over until the end.

Guitar 2 solos until the end, over C#. I'm not even going to try tabbing it, just or figure it out yourselves.

The end fades out.

```

| / slide up
| \ slide down
| b bend (eg. 9b11b9, means bend on fret 9 to 11 and back down to 9)
| h hammer-on
| p pull-off
| ~ vibrato
| + harmonic
| x Mute note

```
