Break Stuff Tab by **Limp Bizkit**

Tuning: C# F# B E G# C#

Song: Break Stuff
Artist: Limp Bizkit
Tabbed by: Nick Chavez

This song is pretty easy to learn if you get the right tab of it. I've found out that
this is the actual way you play the song

Real way: First off, you have got to tune down 1 and 1/2 steps. The way you do that is
to lay your fingers above the 3rd fret, and then just tune it normally (E,A,D,G,B,e).
So now when you take your fingers off, it is tuned to C#,F#,B,E,G#,c#. Now that you
are
in tune, time to jam.

[Chorus]

```
c#|---------|
G#|---------|
E |---------|
B |--4------|
F#|--4----3-|
C#|--2------|
```

Repeat as needed

[Bridge 1]

```
c#|----------------------------------------------|
G#|----------------------------------------------|
E |----------------------------------------------|
B |----------xx-x---------xx-x---------xx-x-------|
F#|--4---4^--xx-x-4---4^--xx-x-4---4^--xx-x-4/5/4-|
C#|--2^--2^--xx-x-2^--2^--xx-x-2^--2^--xx-x-2/3/2-|
```

Repeat again and when you get back to here-^,do this

```
c#|--------|
G#|--------|
E |--------|
B |-4------|
F#|-4----3-|
C#|-2------|
```

Then do the [Chorus] Repeat as needed.

Then repeat [Bridge 1] twice.

Then you do the following palm muted.

```
c#|-----|
G#|-----|
E |-----|
B |-----|
F#|-3-4-|
C#|---2-|
```

Repeat as needed

Then here's the heavy part.

```
c#|--------------------|
G#|--------------------|
E-|--------------------|
B-|--------------------|
F#|-3------3--------3---|
C#|---2--0---2--2-0---2-|
```

Repeat as needed.

Then at the end, do the [Chorus] once.

Last, you do [Bridge 1] twice.

Well there you have it hope this has been helpful. One last note of advice, if you
listen to the song, you should get the timing perfect. Oh yeah, the little "^" things
mean
that you bend the note a little.
